Kai Leonov

Dundee, UK · kirillleonov46@gmail.com · github.com/le0dent· le0dent.github.io/portfolio

Profile

Junior Front-End Developer with a focus on writing clean, structured and responsive code. Comfortable with HTML, CSS, and JavaScript, with practical experience using Git and GitHub for version control.
Strong understanding of layout design, accessibility principles, and teamwork through hackathons and group projects.
Currently developing skills in React, Node.js, and SASS (BEM). Motivated to join a creative team where I can continue learning modern web technologies.

Education

University of Dundee, Scotland — *BSc Computer Science*
2024 – 2028
Relevant modules: Web Development, Java Programming, Data Structures and Algorithms.
Achievements:

Selected Projects

Todo List
Created a CRUD-based task manager using vanilla JavaScript with persistent data storage.
Focused on simple UX and keyboard accessibility.
Tech: HTML, CSS, JavaScript.

JS Calculator
Developed an interactive calculator with keyboard support and input validation.
Cleanly structured DOM logic and event handling.
Tech: HTML, CSS, JavaScript.

Simple HTML Landing Page
Built a clean, static landing page applying semantic HTML and responsive CSS grid.
Focused on layout consistency, spacing, and cross-browser testing.
Tech: HTML5, CSS3.

Technical Skills

- **Languages & Tools:** HTML5, CSS3, JavaScript, Java, Git, GitHub, Node.js
- **Frameworks / Concepts:** React (beginner), SASS (BEM), Responsive Web Design
- **UI & Design Tools:** Figma, Chrome DevTools, VS Code
- **Practices:** Version control (Git), cross-browser testing, semantic markup
- **Hosting & Deployment:** GitHub Pages, Hostinger, Speceship

Transferable Skills

- **Leadership:** Co-led a small team during startup challenge, assigning roles and ensuring timely delivery.
- **Teamwork:** Collaborated with peers in hackathons and group projects using Git workflows.
- **Adaptability:** Quickly learn new technologies and workflows in fast-paced environments.
- **Problem Solving:** Debugging UI and logic errors using DevTools and console analysis.
- **Communication:** Clear in code documentation, Git commits, and peer discussions.

Achievements

- **Quackathon 2025** — 2nd Place, University of Dundee
- **Enterprise Challenge (2025)** — Building prototype with partner, focusing on MVP delivery
- **Personal Projects** — Consistently building, publishing, and refining front-end demos
